

عنوان الدورة والورشة	عنوان البحث المنشورة 2025-2026	الاسم
Antenna Design and Specification for 5G Application	Homomorphic Encryption-Enabled Federated Transfer Learning for Privacy-Preserving of Internet of Vehicles	أ.م.د. يوسف خالد يوسف
	An Improved DenseNet Model for Pediatric Pneumonia Detection Using Chest X-Ray Images	
	A Deep Reinforcement Learning-Based Trust Management Model for Secure Routing in Vehicular Ad-Hoc Networks Under Real-Time Traffic Variations	
	Federated Learning Architecture for Cross-Domain Threat Detection in Distributed IoT Networks with Dynamic Adversarial Adaptation	
الاطفاء الشائعة في كتابة الورقة البحثية	An Intelligent IoT-Based Hydroponic Irrigation System for Strawberry Cultivation Using Extreme Gradient Boosting Decision ModelINA	أ.م.د. ربيع رعد علي احمد
	Multi-Class Brain Tumor Segmentation and Classification in MRI Using a U-Net and Machine Learning Model	
	DUA-YOLOv8 for Autonomous Vehicles: Traffic Light Detection with DUANet and SPPCSPC Modules	
	Solution Evaluation to Enhance Cloud Computing Security: Challenges and Solutions.	
	Enhanced Local Line Binary Patterns for Palmprint Images	
	Symmetric Image Encryption Using Chaotic Logistic Map and Deep Convolutional Feature Learning.Q3	
	A Hybrid Bio-Inspired Optimization Based Enhanced Cluster Head Selection to Improve Communication in Vehicular Ad-Hoc Networks	
العنف ضد المرأة في الفضاء الرقمي	Leveraging Deep Learning for Anemia Detection Using Palm Images: Innovative Solutions for Sustainable Development	م.د. فدوى صبيحي مصطفى
الصحة الرقمية والتنمية المستدامة	Real-Time License Plate Recognition Using YOLOv10 and OCR Integrat	
تكنولوجيا الواقع المعزز (التطبيقات والإنتاج)	Challenges and Opportunities in Assistive Audio Recognition Technologies for Deaf and Hard-of-Hearing (DHH)	
	Designing a Non-Invasive Anemia Detection System for Sustainable Healthcare	
	Real-Time License Plate Recognition Using YOLOv10 and OCR Integration for Autonomous Traffic Monitoring and Surveillance Systems	
مستشعرات واجهزة انترنت الأشياء	Enhancing security through vehicle and license plate recognition: Review	
مستشعرات واجهزة انترنت الأشياء	Privileging and Prioritizing Processes of Sustainable Energy Resources for Residential Loads to Energize Green Cities	م.د. محمد باسل شكر
انظمة الشبكات: بناء وصيانة وتطوير	Software Defined Networks with Artificial Intelligence: A Comprehensive Analysis and Review	م.د. نوال يونس عبدالله حمد
اساسيات البرمجة والتحليل العددي		
Complex Networks programming using Python		
لايوجد	Sonar data classification using deep learning techniques	م.م. طيبة علي جاسم
	An Intelligent Model for Analyzing the (I'rāb) Syntax Parsing of the First Three Parts (Juz') of the Holy Quran	
	Vehicular-to-Everything (V2X) Communication Using 5G NR for Autonomous Vehicles	

power network transient stability	لايوجد	أ.م.د. عاصف عبدالاله صالح
Thyristor control series compensation		
دورة بعنوان التحويلات والاساليب العددية	لايوجد	م.م. نازك جمال احمد الياس
